### DETAILED ACTION

Applicant's amendment dated 03/24/2006 has been received and entered. By the amendment, claims 1-9 and newly added claims 24-42 are now pending in the application.

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 35, 38, 39 and 42 are rejected under 35 U.S.C 102(b) as being anticipated by Yamanaka et al., US Patent No. 5,986,729.

The above claims are anticipated by Yamanaka et al figure 4 which discloses a reflection type liquid crystal display (LCD) device comprising:

- . a first substrate (1);
- . a second substrate (2);
- . a reflective layer (9);
- . a first electrode (12);
- . a second electrode (13);
- . a third electrode (17);

wherein a first set of electrode (e.g. 12 and 17) and a second set (e.g. 13 and 17) are activated optionally to create images.

***Allowable Subject Matter***

3. Claims 3-9 and 32-34 are allowed.
4. Claims 36, 37, 40 and 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments filed 03/24/2006, with respect to claim 1 and 2, have been fully considered but they are not persuasive.

Re double patenting rejection:

Applicant deferred responding to the double patenting rejection is acknowledged.

Re claims 1 and 2:

In response to Applicant's argument, regarding claims 1 and 2 that Yamanaka does not include certain features of Applicant's invention, the limitations on which the Applicant relies (i.e., active matrix mode) are not stated in the claims. It is the claims that define the claimed invention, and it is the claims, not specifications that are anticipated or unpatentable. *Constant v. Advanced Micro Devices Inc.*, 7 USPQ 2d 1064.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

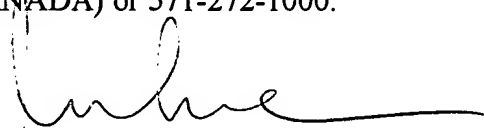

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
